SUPPLEMENT TO
REPORT NO.

25X1X

Parachute training was observed three times during the period from May 1948 to September 1949, in the area west of Lakeyevka (48°02'N/37°58'E), Ukrainian S.S.R., north of the road to Stalino (48°00'N/37°42'E). From 20 to 25 men jumped from each of the four or five twin-engine aircraft employed for these exercises. No airfield was known to be located near Lakeyevka. *

25X1A

* Comment. The report may be considered as a confirmation of references, according to which a parachute unit was located at the airfield just south of the Lakeyevka-Stalino road. Source is mistaken in stating that there was no airfield near Lakeyevka. There is an airfield just south of the town, and was in existence during the war. However, this installation is certainly not connected with the parachute training reported.
